

IN THE SPECIFICATION

Please replace the paragraph beginning at page 1, line 5, with the following rewritten paragraph:

Cross-Reference to Related Applications

The present application is a continuation application of U.S. application serial no. 09/185,243 filed November 3, 1998, allowed, which This claims priority from U.S. provisional application Serial No. 60/064088 filed November 3, 1997 (35 USC § 119(e)(1)).

Please replace the paragraph beginning at page 12, line 4, with the following rewritten paragraph:

FIG 10. shows the DNA sequence (SEQ ID NO:1) of the BamH 1-HindIII fragment of pl730R from StressGen Biotechnology Corp. This fragment contains the approximately 0.4kb minimal HSP70B promoter fragment used in constructs of the specific examples, Example 1 and 3, below.

Page 66, please replace Table 4 with the following Table 4:
